

Hold a Vascular Screening Event

Customizable Screening Event Toolkit Available

SVS is compiling a database of screening events (including free and fee-based) to be listed on VascularWeb.org. Screening events held throughout the year (either annually or on-going) will be promoted.

SVS will conduct a national promotion in September for National Vascular Awareness Month. We encourage all members to conduct a screening event in September to raise public awareness of vascular health and the role of the vascular surgeon.

A free-to-members turn-key Screening Event Toolkit is available in the Members Only section of VascularWeb. It contains all the information, forms, and promotional materials you need to conduct a screening event including: Screening Event Guidelines, Event Planning Timeline, Materials Checklist, Screening Forms, and Screening Event Press Kit. Also included are patient education materials that have been professionally designed and can be customized with space for you to enter your own contact information and print from your computer.

If you have any questions about the Screening Event Toolkit or the Members Only section, please call 800-258-7188 or email communications@vascularsociety.org.

Promote Your Screening Event on VascularWeb

Include your screening event on VascularWeb.org. Complete this form and fax it to 312-202-5610 or email the information to communications@vascularsociety.org.
